Kindworth

Where emotional intelligence meets measurable culture.

Pre-Seed Investment · December 2025

The Culture Blindspot

The Problem

- **$500B+** lost annually to turnover and disengagement
- Surveys are **lagging indicators**—issues found too late
- Leaders fly blind on day-to-day culture health
- Recognition programs lack **measurable ROI**

The Impact

- **20%+ turnover** in high-growth companies
- **48%** report burnout symptoms
- **70%** of engagement variance tied to managers
- Average cost per departure: **$15-25K**

"Companies discover culture problems after the damage is done."

Market Opportunity

$40B	$80B	15%+
HR Tech Market 2024	Projected 2030	Engagement CAGR

- Employee experience: **fastest-growing subsegment**
- Cloud delivery dominates; **APAC fastest-growing**
- CFOs demand measurable links between culture and outcomes

Product Overview

🤖 Slack Bot

- Detects recognition moments automatically
- `/kq` command for personal score
- `/kudos-summary` for team stats
- Coaching nudges for managers

📊 Dashboard

- Real-time KQ leaderboards
- Recognition network graph
- Trend analysis & predictions
- Department comparisons

The KQ Model — Our IP

T/D/U → log1p → winsorize → K-matrix → eigenvector → PDE decay → **KQ 0-100**

572K	16.5K	2.48	20.5
Messages Tested	Recognitions	λ_max	Median KQ

What Makes It Unique

- **Behavioral signals** vs surveys
- **Robust statistics** handle noise
- **Eigenvector weighting** finds patterns
- **Temporal decay** captures momentum

Defensible IP

- Novel combination of methods
- Validated on 350-user simulation
- Extensible to coaching AI
- Privacy-preserving by design

Simulated Case Study: 350-Person Company

572K	16.5K	1,377	2.9%
Messages/Year	Recognitions	Monthly Avg	Recognition Rate

100	20.5	26
Top KQ (sal157)	Median KQ	High Performers

- **Top performer:** sal157 (Sales) — 144 recognitions, 81 unique recipients, 15 tag types
- **Department leaders:** Engineering (eng002 KQ=91), Product (pro121 KQ=79)
- **Recognition champions** (17 users) drive 3-4x more recognitions
- **Eigenvector weights:** U (unique recipients) slightly most important (0.60)

Kindworth is unique: real-time behavioral EI signals + predictive analytics + privacy-first.

Roadmap

Q1 2025

- Slack MVP launch
- 5 pilot customers
- Core KQ algorithm

Q2 2025

- Teams integration
- Manager coaching
- 20 customers

Q3-Q4 2025

- AI coaching
- HRIS integrations
- $100K ARR

2026

- Enterprise tier
- Drift detection
- Series A ready

The Ask

$250K - $400K
