KQ
Kindworth

"Where emotional intelligence meets measurable culture."

Measure the Behaviors That Make Teams Thrive

Real-time culture intelligence from Slack recognition signals. We process conversations—never store them.

⚠️ THE PROBLEM

- Culture issues discovered too late via annual surveys
- $500B+ lost annually to turnover and disengagement
- Leaders lack continuous, real-time culture visibility
- Recognition programs can't prove ROI

✨ THE SOLUTION

- Real-time recognition signal detection in Slack
- Proprietary KQ (Kindness Quotient) scoring algorithm
- Predictive culture analytics and trend detection
- Actionable insights tied to retention metrics

THE KINDWORTH KQ PIPELINE · VALIDATED ON 572K+ MESSAGES

`T/D/U` → `log1p` → `median/MAD` → `winsorize` → `K-matrix` → `eigenvector` → `PDE decay` → **`KQ 0-100`**

572K	16.5K	2.48	20.5
